Qiwei and Hans:

I am sending you all the summary tables, listings and figures for the 28030 study. I will do one group per e-mail because of size. I might not be able to get them all sent today. It takes a while to pull them into WORD files. I will keep at it until they are all sent. Hopefully no later than Monday morning.

I will start writing the biomarker results next week. Please let me know if you have any questions.

Thanks.

Nancy
